PROFILE

Full stack (front-end + back-end) and **mobile** developer with 5+ years of experience designing and building custom websites, web applications, SaaS platforms and e-commerce solutions, complemented by a dual **agro-economics / data** background (field data collection with Kobocollect, data visualisation) and a strong focus on **Agritech, AI and digital products**. Digital entrepreneur (founder of **Solutions Luciole**, 2020), I build high-value products: web platforms, business tools, data collection applications and AI integrations (generative model APIs, AI agents, n8n, MCP). Strong command of the **JavaScript/PHP** ecosystem (React, Next.js, Node.js, Express, Laravel), **CMS** platforms (WordPress, WooCommerce, Elementor, Shopify, Webflow), **mobile** development (Flutter, FlutterFlow, React Native), **blockchain / Web3** (Solidity, ThirdWeb, Hardhat, Web3.js) and cloud deployment (AWS, DigitalOcean, Vercel, Hostinger, cPanel). Trained through the **ALX Software Engineering** programme and participant in the **AMD Developer Hackathon (LabLab.ai, 2026)**.
